

## The Makofsky Minute | April 2, 2020

### Thank You to Our Courageous Healthcare Heroes

During every crisis, there are some individuals and professionals that just shine and truly save the day. During this global pandemic, *ALL* healthcare workers *DESERVE OUR BOUNDLESS ADMIRATION AND GRATITUDE.*

These doctors, PAs, RNs, CNAs and all the other health care members in our communities are the true heroes as they put their own lives at risk to help save the lives of others.

As a thank you to all the brave healthcare workers fighting on the frontline to beat this horrific COVID-19 pandemic, we want to provide a free telephone consultation to any healthcare worker who would like to discuss putting an estate and disability plan in place or who would like to discuss revising a current estate and disability plan. As attorneys, we'd like to play a part, even if just a small one, in this fight. If you or a loved one is interested in this offer, please contact us.

Thank you again to all the amazing healthcare workers out there. We admire you and again, YOU are all the true HEROES!
